1. Attached hereto is memorandum, dated 7 March 1947, from [REDACTED] through Acting Chief, FBT. In view of the circumstances outlined in the memorandum, [REDACTED] requests an advance of \$1,000 to be repaid within one year of receipt. You will note the ADSO's approval is subject to concurrence and approval by this office and yourself.

2. This situation was discussed with [REDACTED] FBT by the undersigned. As a general principle, if it is administratively determined that the Project involved is a proper one for CIG to undertake and it is further administratively determined that the expenditure of funds for an advance of this nature is necessary to the Project, there would be no legal objection to such an advance in the amount requested. In view of ADSO's approval, therefore, this office has no legal objection to the operational advance of \$1,000 [REDACTED]

4. [REDACTED] has advised the undersigned that, since his expenses will be very heavy during the first six months of his duty at the foreign station, he would be agreeable to start repayment effective the first pay period of October, 1947. For each monthly pay period thereafter, he would be willing to have deducted from his pay the amount of \$166.66, which would liquidate the advance of \$1,000 within one year of receipt.

8. Your office has been furnished a sample promissory note which may be used in this case, and it is believed that a letter satisfying the requirements of this office could be drafted by your office, keeping in mind your requirements. If assistance is desired on either of these items, we shall cooperate upon request. In view of [REDACTED] early departure, he requested that the advance of \$1,000 be available to him on 12 March 1947.
